Mittwoch, den 07. März 2018 um 21:13 Uhr - Aktualisiert Dienstag, den 29. Januar 2019 um 15:22 Uhr

The Sidblaster-USB TicTac Rev. 1.2 is available.

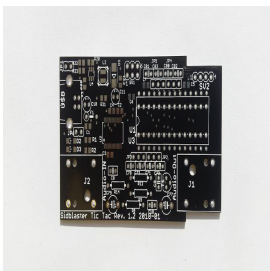

All Files at GitHub uploaded.

[SIDBlaster-USB TicTac Edition at GitHub](#)

improvements:

- - Red TX / RX LED
- - New experimental jumper to connect ground with USB shield
- - Recesses for Tic Tac box

A small improvement in the firmware: With a future version of hardsid.dll it will be possible to read from the sidblaster USB. However, with an additional (asynchronous) method. For example, reading Synchrones in Vice will never be possible.
